The author gives a brief introduction, describing how to use Butterflies, how to access the online app, and how to use the interactive quiz that Butterflies offers. You will learn how to create your own Butterflies quiz and add it to the online app. Preliminary Explanation Using Butterflies will have a great impact on your child's life. As a child grows older, he/she needs

more and more mental exercise to keep his/her brain busy. Butterflies offers different games to help the child learn and have fun at the same time. The game "Butterflies" is designed to help the children learn more about the life cycle of butterflies, migrations, habitat, and more. And how to make your own Butterflies quiz? Answers to the questions will be made available to you in the online

app once your quiz is completed and published. You will learn how to create and publish your own Butterflies quiz, to be shared with others. The online app is an open network, so you can publish your quiz to other communities. There are several communities on Butterflies where you can find other people who want to share their knowledge with the kids. Do your kids love butterflies? Then you are in

the right place. We have over 1,500 interactive games for kids, available online and in the App Store. Butterflies is a game for all kids, no matter what their age is. Butterflies Design and development Butterflies is designed with the target group in mind. As you will learn in this lesson, Butterflies is created to be fun to use and easy to access. We have focused on a small and specific group, the young ones. So, we developed the

application with the following objectives in mind: We would like to introduce the children to the life cycle of the butterfly, which is something they really love. We want to teach children how to share their knowledge with their friends. We want to offer a fun and interactive learning experience for the kids. We would like to add some fun games and activities to the application. From idea to concept In the beginning, I

had an idea of an application where you have several questions and you have to guess the answers. This was inspired by a crossword puzzle game I used to play when I was a kid. The kid's
